BRYSTON

MEMO

SEPTEMBER 2024

I'M REALLY HAPPY!

Hi folks!

I did something and I'm really happy with it!

Bi-Amping my Bryston Trim T¹⁰ speakers with a Bryston 4B³ on the Bass and a 3B³ on the Mid/Tweets

Steve

One of the advantages of our new crossover in all our T¹⁰ speakers is you can use 1 or 2 or 3 amps or go 'Active' at any time simply by swapping out the crossover module.
