## Absolutely Amazed !

Hi Folks,

I had a demo of a BR-20/4B3 combination with Sonus Faber speakers with a pal today.

**We were both absolutely amazed to hear CD quality recordings that actually sounded better than vinyl in an A/B comparison.**

The salesman quickly noticed on to how impressed we were so I got the full Glen Garry/ Glenn Ross SMS sales bombardment after the demo.

The Dutchies know how to close a deal! I think I probably will buy one and the leave the old record collection as a room decoration.
