Toronto Audiofest HiFi Oasis Show Report

BRYSTON

This might have been one of the best-sounding setups at the show !

Definitely in the top 3 for me.

Here we have the Bryston Middle T¹⁰ loudspeakers, and they definitely filled the room. The sound was spacious, with excellent separation, and the detail across the whole frequency range was phenomenal.

Listening to Dire Straits on this setup you can hear the air and grumble in Mark Knopfler's voice when he changes his tone, and his stellar guitar work.

This system was a treat to listen to.
