MODEL T¹⁰

Bryston Model T10 loudspeaker:

“I’ve never heard a pair of speakers as large as Bryston’s new Model T10s in my listening room, and the experience was revelatory.”

“I won’t go into detail here, but I also spent some time listening to the T¹⁰s in their Active configuration in James Tanner’s (Bryston’s) listening room.

They were so powerful, well controlled, and evenly balanced that I can imagine them as an endgame purchase for many people.”
